Many years of research conducted by The Gallup Organization suggest that the most effective people are those who understand their strengths and behaviors. These people are best able to develop strategies to meet and exceed the demands of their daily lives, their careers, and their families.

A review of the knowledge and skills you have acquired can provide a basic sense of your abilities, but an awareness and understanding of your natural talents will provide true insight into the core reasons behind your consistent successes.

Your Signature Themes report presents your five most dominant themes of talent, in the rank order revealed by your responses to CliftonStrengths. Of the 34 themes measured, these are your "top five."

Your Signature Themes are very important in maximizing the talents that lead to your successes. By focusing on your Signature Themes, separately and in combination, you can identify your talents, build them into strengths, and enjoy personal and career success through consistent, near-perfect performance.

Adaptability

You live in the moment. You don't see the future as a fixed destination. Instead, you see it as a place that you create out of the choices that you make right now. And so you discover your future one choice at a time. This doesn't mean that you don't have plans. You probably do. But this theme of Adaptability does enable you to respond willingly to the demands of the moment even if they pull you away from your plans. Unlike some, you don't resent sudden requests or unforeseen detours. You expect them. They are inevitable. Indeed, on some level you actually look forward to them. You are, at heart, a very flexible person who can stay productive when the demands of work are pulling you in many different directions at once.

Connectedness

Things happen for a reason. You are sure of it. You are sure of it because in your soul you know that we are all connected. Yes, we are individuals, responsible for our own judgments and in possession of our own free will, but nonetheless we are part of something larger. Some may call it the collective unconscious. Others may label it spirit or life force. But whatever your word of choice, you gain confidence from knowing that we are not isolated from one another or from the earth and the life on it.

This feeling of Connectedness implies certain responsibilities. If we are all part of a larger picture, then we must not harm others because we will be harming ourselves. We must not exploit because we will be exploiting ourselves. Your awareness of these responsibilities creates your value system. You are considerate, caring, and accepting. Certain of the unity of humankind, you are a bridge builder for people of different cultures. Sensitive to the invisible hand, you can give others comfort that there is a purpose beyond our humdrum lives. The exact articles of your faith will depend on your upbringing and your culture, but your faith is strong. It sustains you and your close friends in the face of life's mysteries.

Strategic

The Strategic theme enables you to sort through the clutter and find the best route. It is not a skill that can be taught. It is a distinct way of thinking, a special perspective on the world at large. This perspective allows you to see patterns where others simply see complexity. Mindful of these patterns, you play out alternative scenarios, always asking, "What if this happened? Okay, well what if this happened?" This recurring question helps you see around the next corner. There you can evaluate accurately the potential obstacles. Guided by where you see each path leading, you start to make selections. You discard the paths that lead nowhere. You discard the paths that lead straight into resistance. You discard the paths that lead into a fog of confusion. You cull and make selections until you arrive at the chosen path—your strategy. Armed with your strategy, you strike forward. This is your Strategic theme at work: "What if?" Select. Strike.

Ideation

You are fascinated by ideas. What is an idea? An idea is a concept, the best explanation of the most events. You are delighted when you discover beneath the complex surface an elegantly simple concept to explain why things are the way they are. An idea is a connection. Yours is the kind of mind that is always looking for connections, and so you are intrigued when seemingly disparate phenomena can be linked by an obscure connection. An idea is a new perspective on familiar challenges. You revel in taking the world we all know and turning it around so we can view it from a strange but strangely enlightening angle. You love all these ideas because they are profound, because they are novel, because they are clarifying, because they are contrary, because they are bizarre. For all these reasons you derive a jolt of energy whenever a new idea occurs to you. Others may label you creative or original or conceptual or even smart. Perhaps you are all of these. Who can be sure? What you are sure of is that ideas are thrilling. And on most days this is enough.

Self-Assurance

Self-Assurance is similar to self-confidence. In the deepest part of you, you have faith in your strengths. You know that you are able—able to take risks, able to meet new challenges, able to stake claims, and, most important, able to deliver. But Self-Assurance is more than just self-confidence. Blessed with the theme of Self-assurance, you have confidence not only in your abilities but in your judgment. When you look at the world, you know that your perspective is unique and distinct. And because no one sees exactly what you see, you know that no one can make your decisions for you. No one can tell you what to think. They can guide. They can suggest. But you alone have the authority to form conclusions, make decisions, and act. This authority, this final accountability for the living of your life, does not intimidate you. On the contrary, it feels natural to you. No matter what the situation, you seem to know what the right decision is. This theme lends you an aura of certainty. Unlike many, you are not easily swayed by someone else's arguments, no matter how persuasive they may be. This Self-Assurance may be quiet or loud, depending on your other themes, but it is solid. It is strong. Like the keel of a ship, it withstands many different pressures and keeps you on your course.
